# OKL's New DA Bodymaker

OKL has designed the Bodymaker with an emphasis on performance, resource consumption, safety and house-keeping.

- ◆ Use of composite-bearing materials allow use of a fraction of typical oil resulting in a 60% savings.
- ◆ Reduced air consumption by replacing “air assist” cup-feed with Servo-driven Rotary cup-feed.
- ◆ Removal of, high-pressure pump stations that consume power & generate heat.
- ◆ The new Frame has access panels which are o-ring sealed and guarded The frame has large and conveniently located service points to accommodate routine maintenance and set-up procedures.
- ◆ OKL's guard package is CE approved

Style Number	Stroke Primary	Stroke Redraw	Mfg. Rate	Length of Can
DA185-20	18.5"	2.0"	380	413
DA210-20	21.0"	2.0"	340	504
DA210-25	21.0"	2.5"	300	504
DA240-20	24.0"	2.0"	315	610
DA240-25	24.0"	2.5"	300	610
DA265-25	26.5"	2.5"	275	710
DA280-27	28.0"	2.7"	220	913

# OKL's Remanufactured Standun & Ragsdale Bodymakers

OKL offers complete Ragsdale and Standun machine rebuild services. Beginning with a customer supplied mainframe for a Ragsdale or a bed and gear box for a Standun B5. We begin by inspecting the frame reworking to OEM specs and then utilizing ONLY OKL engineered and manufactured parts deliver a complete machine to customers worldwide.

# Ragsdale Parts & Upgrades

OKL manufactures complete machines and all components and assemblies for the Ragsdale style machines. Our parts are made from the highest quality materials to exacting dimensions.

- ◆ Original design, direct replacement parts for OEM units.
- ◆ Complete speed up packages.
- ◆ Longer lifetime / durability of parts.
- ◆ Competitive pricing.
- ◆ Better can quality and consistency.

# Standun Parts & Upgrades

OKL manufactures all major high speed assemblies for the B3-B5 series Standun style machines. Our parts are made from the highest quality materials to exacting dimensions.

- ◆ Original design, direct replacement parts for OEM units.
- ◆ Complete speed up packages.
- ◆ Longer lifetime / durability of parts.
- ◆ Competitive pricing.
- ◆ Better can quality and consistency.
- ◆ Customer specific Products New/Old Designs.

OKL Unique Products for the Standun are:

- ◆ Swing Lever with out Cap
- ◆ Heavy Duty Swing Lever
- ◆ Heavy Duty Secondary Con Rod
- ◆ Servo Cupfeed and Can Carry-off
- ◆ Billet Crank with Nitride surface treatment
- ◆ Jackshaft with Removable Pinion Gears
- ◆ Push Rods with Nitride, Chrome or Ceramic Coatings

# Field Service & Training

Our factory trained Service Engineers are all full-time employees with extensive Bodymaker build experience as well as process knowledge. They are constantly improving their capabilities and are up to date on the latest technologies. Our Engineer's also provide training to suit various customer needs. From new employee training to troubleshooting, at our facility or at customer plants.
